

ROLLERBOY FAMILY

OSO INDUSTRIES

28" diameter, 16.5" high Rollerboy in the Crete finish in concrete color Grey

The Rollerboy 48, shown here in concrete color Black, trowelled finish

ROLLERBOY FAMILY

The Rollerboys look like a core of solid stone and feel substantial, but they are surprisingly light and they roll around on recessed wheels, giving the illusion of floating. With its simple geometry, mobility and modularity, the Rollerboy is incredibly versatile and can be used as a chair, a table, an ottoman, clustered together as a coffee table, and more! Made from cast concrete, and finished with our signature hand-trowelled concrete or our "Crete" finish, Rollerboys can be used indoors and out and will look beautiful for years to come.

ROLLERBOYS

Rollerboys are available in 15, 19, 24, 28, 36 and 48" diameter. All are available in a 16.5" height and the 19, 24, 28 and 36 are also available in the 22.5" height.

SIZES

The Rollerboy Family is available in the following sizes. All are available in the hand-troweled (left-hand page bottom image) or the Crete finish (top).

The Elliptical Roller. Dimensions: 44" long, 20" wide, 16.5" tall. Shown here in Ash colored concrete with the hand trowelled finish.

ELLIPTICAL ROLLER

Elliptical Roller is 44" long, 20" wide, 16.5" tall with a half inch reveal at the bottom.
