

**CLOUDBOX SEATING—THE OTTOMANS**

A smattering of perches for feet, trays and tukus.

Useful forms for home or institution. Move 'em around. Pull 'em up. Scatter 'em about. Cloudbox ottomans and tuftets are playful spin-off companions to our Cloudbox Seating Series.

Various forms transform from the top to the floor. Square becomes round. Round becomes pentagonal. Rectangle becomes oval.

Cumulus quilting and Nimbus piecing patterns are applied to the various forms from a large square or round to the smaller tuftets and a bench.
